

## Radiator Cleaner

### Description

A concentrate specially developed for cooling systems in general but particularly those in motor vehicles. Dissolves contaminants containing lime and oil in radiators, heating systems, pipes and in engines. Modern formula containing complexants with active cleaning agents.

### Properties

- does not contain acids or alkalis
- disperses sludge
- removes oil and grease residues
- chemical conversion of lime
- neutralizes acids
- neutral behavior in contact with rubber and plastics
- compatible with antifreezes

### Technical data

|                                |                                   |
|--------------------------------|-----------------------------------|
| Form                           | flüssig / liquid                  |
| Color / appearance             | hellgelb / light yellow           |
| Hazard class as per German VbF | keine / none                      |
| pH value                       | ~8,7                              |
| Solubility in water            | mischbar / mixable                |
| Odor                           | charakteristisch / characteristic |
| Density at 20 °C               | 1,029 g/cm <sup>3</sup>           |

### Areas of application

Suitable for all cooling water systems in motor vehicles, buses and commercial vehicles.

### Application

Add contents to the cooling water. Run the heating system. Depending on the degree of contamination let the engine run approximately 10 to 30 minutes. Drain the cleaner and flush out the cooling system with water. Fill the cooling system according to the manufacturer's instructions. The content (300 ml) is sufficient for 10 litres of water.

### Available pack sizes

|                        |                |
|------------------------|----------------|
| 300 ml Can sheet metal | 3320           |
|                        | D-F-NL         |
| 300 ml Can sheet metal | 2506           |
|                        | D-E-P          |
| 300 ml Can sheet metal | 2829           |
|                        | DK/N-S-FIN     |
| 300 ml Can sheet metal | 1804           |
|                        | GB-GR-I        |
| 300 ml Can sheet metal | 2699           |
|                        | D-PL-BG        |
